

Abarajitha Lakshmanan

Technical Advisor

Email: abarajitha@example.com | Phone: +971-XX-XXX-XXXX | LinkedIn: linkedin.com/in/abarajitha

Professional Summary

Detail-oriented Technical Advisor with a strong foundation in computer science, software systems, and emerging technologies. Skilled in translating complex technical concepts into practical guidance for stakeholders, supporting decision-making, and bridging the gap between technical teams and non-technical users.

Core Skills

- Technical Consulting & Advisory
- System Design & Architecture
- AI & Machine Learning Fundamentals
- Data Analysis & Visualization
- Software Development (Python, Java, SQL)
- Cloud & Deployment Basics
- Stakeholder Communication
- Problem Solving & Troubleshooting

Experience

Junior Technical Advisor / Technology Intern

Tech Solutions Group | 2024 – Present

- Assisted senior advisors in evaluating technical requirements and proposing solutions. - Provided guidance on software tools, system workflows, and best practices. - Collaborated with developers to translate client needs into technical specifications. - Supported testing, documentation, and deployment of technical solutions.

Projects

AI-Powered HR Assistant (Academic Project)

- Designed a retrieval-augmented generation (RAG) based assistant for HR use cases. - Implemented document ingestion, vector storage, and query-based responses. - Focused on explainability, human-in-the-loop decision making, and deployment readiness.

Education

Bachelor of Engineering in Computer Science

University of Birmingham Dubai | Expected Graduation: 2027

Certifications & Training

- Introduction to Cloud Computing - Fundamentals of Artificial Intelligence - Data Structures & Algorithms

Additional Information

Strong analytical mindset, quick learner, and effective communicator. Comfortable working in fast-paced environments and adapting to new technologies.
